Hallo!

irgenwelcher Text! REM Portability of latexdiff: \* REM The standard version of latexdiff requires installation of the Perl package \* REM Algorithm::Diff (available from [www.cpan.org](http://www.cpan.org) - \* REM <http://search.cpan.org/~nedkonz/Algorithm-Diff-1.15> ) \* REM but a stand-alone version, latexdiff-so, which has this package inlined, \* REM is available, too. latexdiff-fast requires the diff command to be present. \* REM Installation under MiKTeX \* REM download file "install-tl.zip" it contains perl stuff \* REM you may need: \* REM - strict.pm \* REM copy these files to proper place, e.g.: <C:/Programme/MiKTeX 2.8/miktex/lib/site> \* REM <C:/Programme/MiKTeX 2.8/miktex/lib/site> \*
